The Adams Express Company

Third Quarter Report – September 30, 2008

LETTER TO STOCKHOLDERS

We submit herewith the financial statements of The Adams Express Company (the Company) for the nine months ended September 30, 2008. Also provided are a schedule of investments and other financial information.

Net assets of the Company at September 30, 2008 were \$12.80 per share on 85,506,641 shares outstanding, compared with \$15.72 per share at December 31, 2007 on 87,668,847 shares outstanding. On March 1, 2008, a distribution of \$0.05 per share was paid, consisting of \$0.02 from 2007 investment income, \$0.01 from 2007 short-term capital gain, \$0.01 from 2007 long-term capital gain, and \$0.01 from 2008 investment income, all taxable in 2008. A 2008 investment income dividend of \$0.05 per share was paid on June 1, 2008 and September 1, 2008.

Net investment income for the nine months ended September 30, 2008 amounted to \$16,755,931, compared with \$22,066,131 for the same nine month period in 2007. These earnings are equal to \$0.20 and \$0.26 per share in each period.

Net capital gain realized on investments for the nine months ended September 30, 2008 amounted to \$29,313,281, or \$0.34 per share.

For the nine months ended September 30, 2008, the total return on the net asset value (with dividends and capital gains reinvested) of the Company's shares was (17.6)%. The total return on the market value of the Company's shares for the period was (22.7)%. These compare to a (19.3)% total return for the Standard & Poor's 500 Composite Stock Index and a (19.7)% total return for the Lipper Large Cap Core Mutual Fund Average over the same time period.

For the twelve months ended September 30, 2008, the Company's total return on net asset value was (20.5)% and on market value was (22.4)%. Comparable figures for both the S&P 500 and the Lipper Large Cap Core Mutual Fund Average were (22.0)%.

The unprecedented financial turmoil of the past quarter has been reflected in the portfolio's performance as well as the net capital gain realized thus far in 2008. Despite this, as mentioned previously, the Company's total return on net asset value was better than the S&P 500 for both the nine month and twelve month periods.

While we reduced our weighting in financial stocks relative to the S&P 500 two years ago, we were not immune to the recent pressure brought to bear on the sector. As delineated in the table entitled Changes in Portfolio Securities on page 12 of this report, we sold our entire positions in American International Group,

Morgan Stanley, and Wachovia during the quarter. Many of the companies in the portfolio, however, use short-term financing and are impacted to some degree by the credit crunch.

The ultimate effectiveness of the steps being taken worldwide to resolve the difficult credit issues remains to be seen. Regardless of the timing of the resolution, the current economic weakness is expected to remain through a good part of 2009, with modest recovery beginning late in the year. The portfolio is invested with this and slow economic growth thereafter in mind.

The sizable cash position in the Fund is a defensive bulwark and will enable us to take advantage of attractive opportunities as they present themselves over the course of the next year. Our long term investment horizon enables us to retain those companies in the Fund that are expected to do well over the next five years, though they may encounter headwinds in the shorter term.

Current and potential stockholders can find information about the Company, including the daily net asset value (NAV) per share, the market price, and the discount/premium to the NAV, on our website at www.adamsexpress.com. Also available on the website are a history of the Company, historical financial information, and other useful content. Further information regarding stockholder services is located on page 15 of this report.

Effective September 11, 2008, the Board of Directors elected Brian S. Hook to the position of Assistant Treasurer. Mr. Hook was formerly a vice president at T. Rowe Price Associates and a senior manager in its Investment Treasury Group.

By order of the Board of Directors,

Douglas G. Ober,

Chief Executive Officer*

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. Significant Accounting Policies

The Adams Express Company (the Company) is registered under the Investment Company Act of 1940 as a diversified investment company. The Company is an internally-managed fund whose investment objectives are preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, which require the use of estimates made by Company management. Management believes that estimates and security valuations are appropriate; however, actual results may differ from those estimates, and the security valuations reflected in the financial statements may differ from the value the Company ultimately realizes upon sale of the securities.

Affiliated Companies — Investments in companies 5% or more of whose outstanding voting securities are held by the Company are defined as “Affiliated Companies” in Section 2(a)(3) of the Investment Company Act of 1940.

Security Transactions and Investment Income — Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of identified cost. Dividend income and distributions to stockholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

Security Valuation — Investments in securities traded on a national security exchange are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not available are valued at the last quoted bid price. Short-term investments (excluding purchased options) are valued at amortized cost which approximates fair value. Purchased and written options are valued at the last quoted asked price.

The Company adopted Financial Accounting Standard Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (“FAS 157”), effective January 1, 2008. There was no impact on the fair value of assets individually or in aggregate upon adoption. In accordance with FAS 157, fair value is defined as the price that the Company would receive upon selling an investment in an orderly transaction to an independent buyer. FAS 157 established a three-tier hierarchy to establish classification of fair value measurements, summarized as follows:

- Level 1 — fair value is determined based on market data obtained from independent sources; for example, quoted prices in active markets for identical investments,
- Level 2 — fair value is determined using other assumptions obtained from independent sources; for example, quoted prices for similar investments,
- Level 3 — fair value is determined using the Company’s own assumptions, developed based on the best information available in the circumstances.

The Company’s investments at September 30, 2008 are classified as follows:

	Investment in securities	Written options
Level 1	\$ 989,975,214	\$221,500
Level 2	183,971,130*	—
Level 3	—	—
Total	\$1,173,946,344	\$221,500

* Consists of short-term investments and securities lending collateral.

2. Federal Income Taxes

The Company’s policy is to distribute all of its taxable income to its stockholders in compliance with the requirements of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. For federal income tax purposes, the identified cost of securities at September 30, 2008 was \$1,054,070,139 and net unrealized appreciation aggregated \$119,876,205, of which the related gross unrealized appreciation and depreciation were \$268,342,031 and \$148,465,826, respectively.

Distributions are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Accordingly, annual reclassifications are made within the Company’s capital accounts to reflect income and gains available for distribution under income tax regulations. Any income tax-related interest or penalties would be classified as income tax expense.

3. Investment Transactions

The Company’s investment decisions are made by a committee of management, and recommendations to that committee are made by the research staff.

Purchases and sales of portfolio securities, other than options and short-term investments, during the nine months ended September 30, 2008 were \$160,939,479 and \$192,018,312, respectively. Options may be written (sold) or purchased by the Company. When the Company writes an option, an amount equal to the premium received by the Company is recorded as a liability and is subsequently adjusted to the current fair value of the option written. Premiums received from unexercised put/call options are treated as realized gains from investments, premiums received from exercised put options reduce the cost basis of the securities purchased, and premiums received from exercised call options are added to the proceeds from the sale of the underlying security in determining whether there is a realized gain or loss. The Company as writer of an option bears the risks of possible illiquidity of the option markets and the unfavorable change in the price of the security underlying the written option. The risk associated with purchasing an option is limited to the premium originally paid for the option. A schedule of outstanding option contracts as of September 30, 2008 can be found on page 12.

Transactions in written covered call and collateralized put options during the nine months ended September 30, 2008 were as follows:

	Covered Calls		Collateralized Puts	
	Contracts	Premiums	Contracts	Premiums
Options outstanding, December 31, 2007	1,757	\$ 197,788	1,726	\$ 194,530

Options outstanding, September 30, 2008	1,050	\$ 125,599	1,000	\$ 103,874

4. Capital Stock

The Company has 10,000,000 authorized and unissued preferred shares, \$0.001 par value.

On December 27, 2007, the Company issued 2,381,872 shares of its Common Stock at a price of \$13.945 per share (the average market price on December 10, 2007) to stockholders of record on

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

November 21, 2007 who elected to take stock in payment of the year-end distribution from 2007 capital gain and investment income. In addition, 597 shares were issued at a weighted average price of \$14.00 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

During 2008, the Company has issued 421 shares of its Common Stock at a weighted average price of \$12.92 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

The Company may purchase shares of its Common Stock from time to time at such prices and amounts as the Board of Directors may deem advisable.

Transactions in Common Stock for 2008 and 2007 were as follows:

	Shares		Amount

Net change	(2,162,206)	830,624	\$(26,504,190)	\$ 11,223,696

5. Retirement Plans

The Company's non-contributory qualified defined benefit pension plan ("qualified plan") covers all employees with at least one year of service. In addition, the Company has a non-contributory nonqualified defined benefit plan which provides eligible employees with retirement benefits to supplement the qualified plan. Benefits are based on length of service and compensation during the last five years of employment.

The funded status of the plans is recognized as an asset (overfunded plan) or a liability (underfunded plan) in the Statement of Assets and Liabilities. Changes in the prior service costs and accumulated actuarial gains and losses are recognized as accumulated other comprehensive income, a component of net assets, in the year in which the changes occur.

The Company's policy is to contribute annually to the plans those amounts that can be deducted for federal income tax purposes, plus additional amounts as the Company deems appropriate in order to provide assets sufficient to meet benefits to be paid to plan participants. During the nine months ended September 30, 2008, the Company did not contribute to the plans. The Company does not anticipate making any contribution to the overfunded qualified plan in 2008.

The following table aggregates the components of the plans' net periodic pension cost:

	Nine months ended September 30, 2008	Year ended December 31, 2007
Service cost	\$ 253,234	\$ 487,315
Interest cost	336,841	568,495
Expected return on plan assets	(518,806)	(855,553)
Amortization of prior service cost	71,895	94,508
Amortization of net loss	89,174	162,625
Net periodic pension cost	\$ 232,338	\$ 457,390

The Company also sponsors a defined contribution plan that covers substantially all employees. For the nine months ended September 30, 2008, the Company expensed contributions of \$127,044. The Company does not provide postretirement medical benefits.

6. Equity-Based Compensation

Although the Stock Option Plan of 1985 ("1985 Plan") has been discontinued and no further grants will be made under this plan, unexercised grants of stock options and stock appreciation rights granted in 2004 and prior years remain outstanding. The exercise price of the unexercised options and related stock appreciation rights is the fair market value on date of grant, reduced by the per share amount of capital gains paid by the Company during subsequent years. All options and related stock appreciation rights terminate ten years from date of grant, if not exercised.

A summary of option activity under the 1985 Plan as of September 30, 2008, and changes during the nine month period then ended, is presented below:

	Options	Weighted-Average Exercise Price	Weighted-Average Remaining Life (Years)
Outstanding at December 31, 2007	146,804	\$11.63	3.47
Exercised	(10,386)	8.70	—
Cancelled	(14,022)	15.62	—
Outstanding at September 30, 2008	122,396	\$11.41	3.05
Exercisable at September 30, 2008	74,096	\$10.87	2.86

The options outstanding as of September 30, 2008 are set forth below:

Exercise Price	Options Outstanding	Weighted Average Exercise Price	Weighted Average Remaining Life (Years)
\$7.00-\$9.24	18,222	\$ 7.67	4.25
\$9.25-\$11.49	67,048	10.13	3.42
\$11.50-\$13.74	—	—	—
\$13.75-\$16.00	37,126	15.54	1.80
Outstanding at September 30, 2008	122,396	\$11.41	3.05

Compensation cost resulting from stock options and stock appreciation rights granted under the 1985 Plan is based on the intrinsic value of the award, recognized over the award's vesting period, and remeasured at each reporting date through the date of settlement. The total compensation cost/(credit) recognized for the nine months ended September 30, 2008 was \$(244,022).

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

The 2005 Equity Incentive Compensation Plan (“2005 Plan”), adopted at the 2005 Annual Meeting, permits the grant of stock options, restricted stock awards and other stock incentives to key employees and all non-employee directors. The 2005 Plan provides for the issuance of up to 3,413,131 shares of the Company’s Common Stock, including both performance and nonperformance-based restricted stock. Performance-based restricted stock awards vest at the end of a specified three year period, with the ultimate number of shares earned contingent on achievement of certain performance targets. If performance targets are not achieved, all or a portion of the performance-based awards are forfeited and become available for future grants. Nonperformance-based restricted stock awards vest ratably over a three year period and nonperformance-based restricted stock units (granted to non-employee directors) vest over a one year period. It is the current intention that employee grants will be performance-based. The 2005 Plan provides for accelerated vesting in the event of death or retirement. Non-employee directors also may elect to defer a portion of their cash compensation, with such deferred amount to be paid by delivery of deferred stock units. Outstanding awards are granted at fair market value on grant date. The number of shares of Common Stock which remains available for future grants under the 2005 Plan at September 30, 2008 is 3,253,387 shares.

A summary of the status of the Company’s awards granted under the 2005 Plan as of September 30, 2008, and changes during the nine month period then ended, is presented below:

Awards	Shares/ Units	Weighted Average Grant-Date Fair Value
Balance at December 31, 2007	87,471	\$13.29
Granted:		
Restricted stock	35,878	13.10
Restricted stock units	7,500	12.49
Deferred stock units	1,735	12.66
Vested	(10,116)	13.46
Forfeited	—	—
Balance at September 30, 2008 (includes 103,354 performance-based awards and 19,114 nonperformance-based awards)	122,468	\$13.09

Compensation costs resulting from awards granted under the 2005 Plan are based on the fair value of the award on grant date (determined by the average of the high and low price on grant date) and recognized on a straight-line basis over the requisite service period. For those awards with performance conditions, compensation costs are based on the most probable outcome and, if such goals are not met, compensation cost is not recognized and any previously recognized compensation cost is reversed. The total compensation costs for restricted stock granted to employees for the period ended September 30, 2008 were \$363,593. The total compensation costs for restricted stock units granted to non-employee directors for the period ended September 30, 2008 were

\$77,380. As of September 30, 2008, there were total unrecognized compensation costs of \$608,724, a component of additional capital surplus, related to nonvested equity-based compensation arrangements granted under the 2005 Plan. Those costs are expected to be recognized over a weighted average period of 1.67 years. The total fair value of shares vested during the nine month period ended September 30, 2008 was \$127,597.

7. Officer and Director Compensation

The aggregate remuneration paid during the nine months ended September 30, 2008 to officers and directors amounted to \$2,068,825, of which \$216,781 was paid as fees and compensation to directors who were not officers. These amounts represent the taxable income to the Company’s officers and directors and therefore differ from the amounts reported in the accompanying Statement of Operations that are recorded and expensed in accordance with generally accepted accounting principles.

8. Portfolio Securities Loaned

The Company makes loans of securities to approved brokers to earn additional income. It receives as collateral cash deposits, U.S. Government securities, or bank letters of credit valued at 102% of the value of the securities on loan. The market value of the loaned securities is calculated based upon the most recent closing prices and any additional required collateral is delivered to the Company on the next business day. Cash deposits are placed in an investment trust fund that may invest in money market instruments, commercial paper, repurchase agreements, U.S. Treasury Bills and U.S. agency obligations. The Company accounts for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Company also continues to receive interest or dividends on the securities loaned. Gain or loss in the fair value of the securities loaned that may occur during the term of the loan will be for the account of the Company. At September 30, 2008, the Company had securities on loan of \$86,018,707 and held cash collateral of \$83,987,981; additional collateral was delivered the next business day in accordance with the procedure described above. The Company is indemnified by the Custodian, serving as lending agent, for loss of loaned securities and has the right under the lending agreement to recover the securities from the borrower on demand.

9. New Accounting Pronouncements

In March 2008, the Financial Accounting Standards Board issued the Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (“FAS 161”), which is effective for fiscal years and interim periods beginning after November 15, 2008. FAS 161 requires enhanced disclosures about derivative and hedging activities, including how such activities are accounted for and their effect on financial position, performance and cash flows. Application of the standard is not expected to materially impact the Company’s financial statements and related disclosures.

Privacy Policy

In order to conduct its business, The Adams Express Company, through its transfer agent, currently American Stock Transfer & Trust Company, collects and maintains certain nonpublic personal information about our stockholders of record with respect to their transactions in shares of our securities. This information includes the stockholder's address, tax identification or Social Security number, share balances, and dividend elections. We do not collect or maintain personal information about stockholders whose shares of our securities are held in "street name" by a financial institution such as a bank or broker.

We do not disclose any nonpublic personal information about you, our other stockholders or our former stockholders to third parties unless necessary to process a transaction, service an account or as otherwise permitted by law.

To protect your personal information internally, we restrict access to nonpublic personal information about our stockholders to those employees who need to know that information to provide services to our stockholders. We also maintain certain other safeguards to protect your nonpublic personal information.

This report, including the financial statements herein, is transmitted to the stockholders of The Adams Express Company for their information. It is not a prospectus, circular or representation intended for use in the purchase or sale of shares of the Company or of any securities mentioned in the report. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if sold, may be worth more or less than their original cost. Past performance is not indicative of future investment results.

STOCKHOLDER INFORMATION AND SERVICES

DIVIDEND PAYMENT SCHEDULE

The Company presently pays dividends four times a year, as follows: (a) three interim distributions on or about March 1, June 1, and September 1, and (b) a “year-end” distribution, payable in late December, consisting of the estimated balance of the net investment income for the year and the net realized capital gain earned through October 31. Stockholders may elect to receive the year-end distribution in stock or cash. In connection with this distribution, all **stockholders of record** are sent a dividend announcement notice and an election card in mid-November.

Stockholders holding shares in “street” or brokerage accounts may make their election by notifying their brokerage house representative.
