### 2018 Annual Meeting of Shareholders

*Location:* Adams Funds, 500 East Pratt Street, Suite 1300, Baltimore, MD 21202

*Date:* April 19, 2018

*Time:* 10:00 a.m.

## Letter from Chief Executive Officer, **Mark E. Stoeckle**

Dear Fellow Shareholders,

A robust economy, strong earnings growth, and expectations for pro-business policies from the Trump administration drove the stock market to record levels in 2017. Bolstered by the strength in the economy, in March the Fed raised interest rates for the third time since the financial crisis. Two additional rate hikes followed, in line with the plan it outlined at the beginning of the year. Despite a number of geopolitical issues in North Korea, Russia, and China, the stock market's volatility was at record lows during 2017. The year ended with the passage of the largest overhaul of the U.S. tax system in decades.

However, it was a disappointing year for the Energy sector, which underperformed the broader market. Oil prices, which began the year in the low \$50's a barrel, fell to the low \$40's in late June, before ending the year at \$60 a barrel. This was the first time in 20 years that energy stocks declined when the overall stock market and the price of oil increased. The Dow Jones U.S. Oil and Gas Index declined 13.4% in the first half of the year as oil prices fell, but recovered almost all the ground it lost in the second half to end the year down 1.6%. The Dow Jones U.S. Basic Materials Index advanced 25.1% for the year.

Adams Natural Resources Fund, with exposure to both Energy and Materials, produced a total return on net asset value of 3.0% and 4.6% on market price. The Fund's benchmark, which is comprised of the Dow Jones U.S. Oil and Gas Index (80% weight) and the Dow Jones U.S. Basic Materials Index (20% weight), generated a gain of 3.8%. Our peer group, the Lipper Global Natural Resources Funds Average, increased 8.1%. In line with our commitment to shareholders, the Fund distributed 6.1% in 2017.

*"We expect investor confidence in the energy market to continue to improve as the price of oil stabilizes."*

### **2017 Market Recap**

Beginning in 2013, rapid growth in U.S. shale oil output contributed to a global oversupply of oil. In response, oil prices fell from over \$100 a barrel in mid-2014 to below \$30 in early 2016. In an effort to reduce the global supply and raise prices, OPEC and Russia agreed to reduce oil output by 1.8 million barrels per day in 2017.

It took longer than expected to realize the benefits from the production cuts, as crude inventories in the U.S. continued to climb in the first half of 2017. Higher U.S. oil production offset the impact of OPEC oil cuts, driving prices lower. Oil prices fell more than 20% through June due to doubts that OPEC's efforts would impact the oversupplied inventory situation.

By the third quarter, U.S. production leveled off and inventory levels began to decline. In August, Hurricane Harvey devastated the Houston area, causing a disruption to oil markets. As inventory levels came down in the third quarter, combined with the impact from the hurricanes, oil prices rose. OPEC compliance with its agreement also improved, which contributed to the increase in prices. In September through November, the price of crude oil rose more than 20% to \$57.40 a barrel, resulting in the three best months in over a year for the commodity. Energy stocks moved in line with oil prices, recovering significantly in the third quarter.

At the OPEC meeting in November, members voted to extend the production cuts through the end of 2018. This extension, coupled with increased uncertainty created by a power struggle in Saudi Arabia, the world's top exporter of crude oil, helped drive oil to a two-year high.

Natural gas had a difficult year, declining 19.5% due to excess supply created by continued efficiencies in gas drilling and higher levels of associated gas from oil drilling. The combination of a mild winter, which reduced demand for home heating fuel, and a cool summer, which led consumers to use less air conditioning, also

## LETTER TO SHAREHOLDERS (CONTINUED)

---

contributed to the decline in the price of natural gas. Unusually cold weather at the end of 2017 drove the price of natural gas up and could offer some support for the commodity.

Against this backdrop, the Energy Index declined 1.6%. Strength in the refining industry helped to offset the disappointing performance of drillers and equipment and service providers. Refining was the best performing industry, increasing 31.2% for the year. The industry benefited from the shutdown of oil refineries caused by Hurricane Harvey, which hit in late August. It impacted refineries along the Gulf Coast and caused a widening of the spread between the price of Brent (the global benchmark for the price of oil) and WTI. Stronger demand and improved margins drove the sector higher in the second half of the year.

Drillers represented the worst performing industry in Energy, declining 25.4%. At low oil prices, deep water off-shore projects, which require large multi-year capital commitments, are limited, thereby reducing demand for drilling. Companies that provide equipment and services to producers declined 15.5%. Large integrated companies, which include Exxon Mobil and Chevron, advanced 1.5% for the year.

In contrast to the Energy market, the Basic Materials Index advanced 25.1%, driven by a 33.3% increase in diversified chemicals and a 23.1% return in metals and mining. The sector benefited from strong economic growth, a reduction in regulations, and rising commodity prices.

### Portfolio Performance

As close to 80% of the Fund's assets are invested in energy stocks, our performance reflected the difficulties of that sector. The Fund's Energy investments underperformed slightly, but the Fund benefited from its diversification as gains in Materials helped to mitigate the deterioration in oil and gas stock prices.

Refining generated the strongest returns for the Fund, increasing 30.2%. Refiners benefited from an active hurricane season, which disrupted the oil supply. Our position in Valero Energy, the world's largest independent refiner, delivered solid returns for the year. Valero has one of the best management teams in the industry and they remain focused on improving efficiency and profitability. Additionally, with a strong position along the Gulf Coast, Valero should benefit from rising U.S. export activity.

Exploration and production (E&P) companies weighed on the Fund's performance. Concerns over the oil/gas production ratio coming from wells in the Permian Basin negatively impacted some companies with a significant presence in the region. While the wells are producing more gas than initially planned, the level of oil production is unchanged. As a result, we continue to favor firms with exposure to the Permian Basin.

Given the volatility in the oil market, we chose to increase our exposure to non-crude based commodities. Demand for liquified natural gas (LNG), the cleanest burning fossil fuel, has increased, driven by transportation efficiencies and increased sensitivity to global warming. To capitalize on these trends, we initiated a position in Cheniere Energy, the largest U.S.-based LNG company. We expect the company to benefit from the continued global growth in the LNG market.

In Materials, we outperformed the sector, driven by our investments in diversified chemicals. Two of the top performing and largest positions in the Fund were LyondellBasell Industries and DowDuPont. LyondellBasell benefited from strong margins in its core businesses, which are essential components in the production of plastics. The expected synergies created by the merger of Dow and DuPont drove the performance of both companies during the year.

### Outlook for 2018

We anticipate a continuation of the current conditions of strong U.S. and global economic growth and slowly rising interest rates in 2018. The underlying fundamentals remain strong for companies, which, combined with the new tax legislation, should lead to higher profitability and sustain the economic expansion.

While the Energy sector moved higher in the second half of 2017, the stock performance of energy companies significantly underperformed the broader market and also lagged price trends in oil. As oil prices

## LETTER TO SHAREHOLDERS (CONTINUED)

---

fell to the low \$40's in mid-2017, E&P companies committed to demonstrating capital discipline by improving returns, reducing debt, and generating cash. This has become a key focus for investors in the sector.

We expect investor confidence in the energy market to continue to improve as the recovery in oil prices appears sustainable, driven by higher global demand and continued supply restraint by OPEC and its partners. In addition to a more balanced supply/demand outlook, recent political unrest in the Middle East, particularly Iran, a major oil exporter, creates further uncertainty and should provide an upward bias for the price of oil.

Of course, there are a number of risks that accompany higher oil prices. Countries outside of the OPEC agreement could decide to raise production and shale producers could also decide to ramp up production, both of which would temper further price appreciation. As oil prices rise, it remains to be seen whether the industry will be able to resist the temptation to abandon the capital discipline that has benefited the industry.

In the face of these unknowns, we continue to find attractive opportunities in the Energy and Materials sectors. We expect the E&P industry to benefit from higher oil prices because it has the most sensitivity to the price of the commodity. During the fourth quarter, we initiated a position in Hess Corporation. The company is positioned to benefit from a multi-year transformation which has focused on reducing costs and increasing production, and should enable the company to generate strong cash flow in the coming years. In addition, Hess has a substantial interest in a very large oil discovery in Guyana, which could provide upside to current estimates. We also initiated a position in Devon Energy. Devon has gone through a significant transformation over the past several years. It has improved its production profile by moving away from natural gas and focusing its capital investments in the Permian and the SCOOP/STACK region in Oklahoma. These changes, combined with a new management team that is committed to a more disciplined capital allocation strategy, should enable the company to generate strong returns.

Despite the rising price of oil, alternative energy usage continues to grow. We increased our position in Albemarle, one of the best-positioned global producers of lithium, a key component in battery technology. We continue to believe the company should benefit from growth in several key markets, including electric vehicles and power storage. In addition, we view the company's recent decision to exit one of its slower growth, non-core businesses positively because it provides capital to reinvest in its high-growth lithium business.

While the overall stock market experienced low volatility, that was not the case for the Energy sector. Adams Natural Resource Fund benefited from its diversified strategy as the advances in the Materials sector helped to offset the Energy sector declines. We are optimistic about the future of the natural resources market and remain focused on identifying quality companies that are executing at the highest levels and are trading at attractive valuations to generate superior returns for our shareholders over the long-term.

We thank you for investing in Adams Funds.

By order of the Board of Directors,

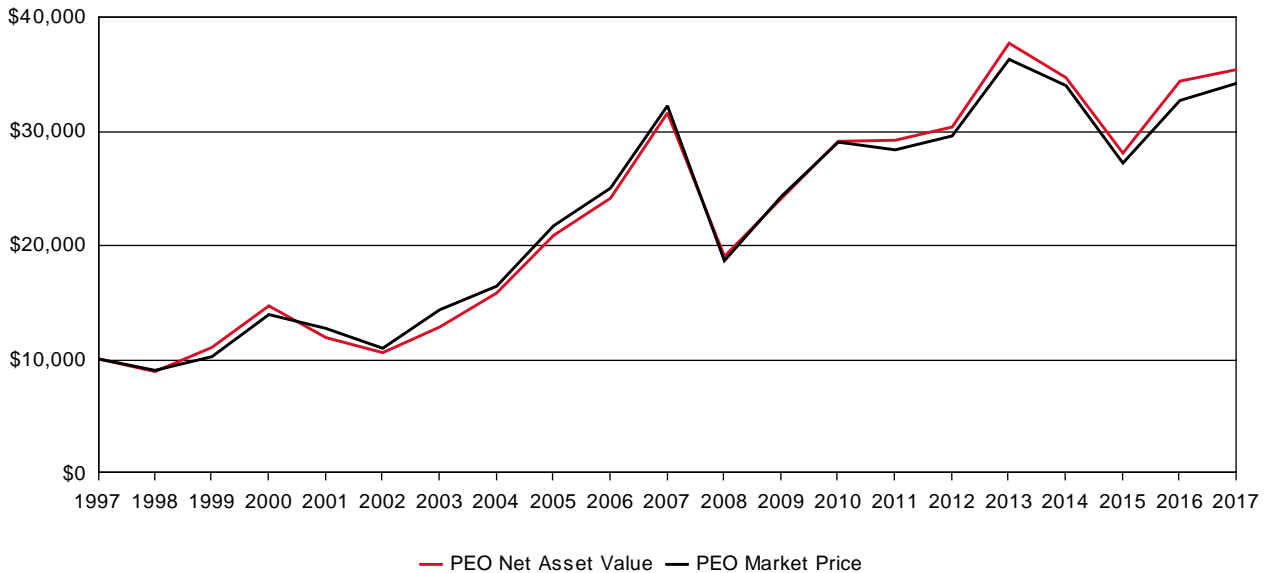

Mark E. Stoeckle  
*Chief Executive Officer*  
January 19, 2018

# INVESTMENT GROWTH

(unaudited)

This chart shows the value of hypothetical \$10,000 investments in the Fund at net asset value and market price over the past 20 years. All Fund distributions are reinvested at the price received in the Fund's dividend reinvestment plan. Returns do not reflect taxes paid by shareholders on distributions or the sale of shares.

## NOTES TO FINANCIAL STATEMENTS

---

Adams Natural Resources Fund, Inc. (the “Fund”) is registered under the Investment Company Act of 1940 (“1940 Act”) as a non-diversified investment company. The Fund is an internally-managed closed-end fund specializing in energy and other natural resources stocks. The investment objectives of the Fund are preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

### 1. SIGNIFICANT ACCOUNTING POLICIES

**Basis of Presentation** — The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for investment companies, which require the use of estimates by Fund management. Management believes that estimates and valuations are appropriate; however, actual results may differ from those estimates and the valuations reflected in the financial statements may differ from the value the Fund ultimately realizes.

**Affiliates** — Adams Diversified Equity Fund, Inc. (“ADX”), a diversified, closed-end investment company, owns 8% of the Fund’s outstanding shares and is, therefore, an “affiliated company” as defined by the 1940 Act. During 2017, the Fund paid dividends and long-term capital gain distributions of \$2,580,393 to ADX. Directors of the Fund are also directors of ADX. The Fund, ADX, and Adams Funds Advisers, LLC (“AFA”), an ADX-affiliated investment adviser to external parties, have a shared management team.

**Expenses** — The Fund shares personnel, systems, and other infrastructure items with ADX and AFA and is charged a portion of the shared expenses. To protect the Fund from potential conflicts of interest, policies and procedures are in place covering the sharing of expenses among the entities. Expenses solely attributable to an entity are charged to that entity. Expenses that are not solely attributable to one entity are allocated in accordance with the Fund’s expense sharing policy. The Fund’s policy dictates that expenses, other than those related to personnel, are attributed to AFA based on the average percentage of time spent by all personnel on AFA-related activities relative to overall job functions; the remaining portion is attributed to the Fund and ADX based on relative net assets. Personnel-related expenses are attributed to AFA based on the individual’s time spent on AFA-related activities; the remaining portion is attributed to the Fund and ADX based on relative time spent for portfolio managers, relative market values of portfolio securities covered for research staff, and relative net assets for all others. Expense allocations are updated quarterly, except for those related to payroll, which are updated annually.

For the year ended December 31, 2017, expenses of \$2,282,337 and \$395,694 were charged to ADX and AFA, respectively, in accordance with the Fund’s expense sharing policy. There were no amounts due to, or due from, affiliated companies as of December 31, 2017.

**Investment Transactions, Investment Income, and Distributions** — The Fund’s investment decisions are made by the portfolio management team with recommendations from the research staff. Policies and procedures are in place covering the allocation of investment opportunities among the Fund, ADX, and AFA to protect the Fund from potential conflicts of interest. Investment transactions are accounted for on trade date. Realized gains and losses on sales of investments are recorded on the basis of specific identification. Dividend income and distributions to shareholders are recognized on the ex-dividend date. Interest income is recognized on an accrual basis.

**Valuation** — The Fund’s financial instruments are reported at fair value, which is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Fund has a Valuation Committee (“Committee”) so that financial instruments are appropriately priced at fair value in accordance with GAAP and the 1940 Act. Subject to

## NOTES TO FINANCIAL STATEMENTS (CONTINUED)

oversight by the Board of Directors, the Committee establishes methodologies and procedures to value securities for which market quotations are not readily available.

GAAP establishes the following hierarchy that categorizes the inputs used to measure fair value:

- Level 1 — fair value is determined based on market data obtained from independent sources; for example, quoted prices in active markets for identical investments;
- Level 2 — fair value is determined using other assumptions obtained from independent sources; for example, quoted prices for similar investments;
- Level 3 — fair value is determined using the Fund's own assumptions, developed based on the best information available under the circumstances.

Investments in securities traded on national exchanges are valued at the last reported sale price as of the close of regular trading on the relevant exchange on the day of valuation. Over-the-counter and listed equity securities for which a sale price is not available are valued at the last quoted bid price. Money market funds are valued at net asset value. These securities are generally categorized as Level 1 in the hierarchy.

Short-term investments (excluding money market funds) are valued at amortized cost, which approximates fair value. Debt securities are generally traded in the over-the-counter market with prices obtained from an independent pricing service, which considers the yield or price of comparable bonds as well as prices quoted by dealers who make markets in such securities. Total return swap agreements are valued using independent, observable inputs, including underlying security prices, dividends, and interest rates. These securities are generally categorized as Level 2 in the hierarchy.

At December 31, 2017, the Fund's financial instruments were classified as follows:

	Level 1	Level 2	Level 3	Total
<b>Assets:</b>				
Common stocks	\$667,729,023	\$—	\$—	\$667,729,023
Short-term investments	7,687,289	—	—	7,687,289
<b>Total investments</b>	<b>\$675,416,312</b>	<b>\$—</b>	<b>\$—</b>	<b>\$675,416,312</b>

There were no transfers between levels during the year ended December 31, 2017.

## 2. FEDERAL INCOME TAXES

No federal income tax provision is required since the Fund's policy is to qualify as a regulated investment company under the Internal Revenue Code and to distribute substantially all of its taxable income and gains to its shareholders. Additionally, management has analyzed the tax positions included in federal income tax returns from the previous three years that remain subject to examination, and concluded no provision was required. Any income tax-related interest or penalties would be recognized as income tax expense. As of December 31, 2017, the identified cost of securities for federal income tax purposes was \$506,569,255 and net unrealized appreciation aggregated \$168,847,057, consisting of gross unrealized appreciation of \$217,740,881 and gross unrealized depreciation of \$48,893,824.

Distributions are determined in accordance with the Fund's annual 6% minimum distribution rate commitment, based on the Fund's average market price, and income tax regulations, which may differ from GAAP. Such differences are primarily related to the Fund's retirement plans and equity-based compensation. Differences that are permanent, while not material for the year ended December 31, 2017, are reclassified in the capital accounts of the Fund's financial statements and have no impact on net assets. For tax purposes, distributions paid by the Fund during the years ended December 31, 2017 and December 31, 2016 were classified as ordinary income of \$13,121,928 and \$11,512,553, respectively, and as long-term capital gain of \$20,539,634 and \$20,499,473, respectively. The tax basis of distributable earnings at December 31, 2017 was \$1,006,135 of undistributed ordinary income and \$381,592 of undistributed long-term capital gain.

## NOTES TO FINANCIAL STATEMENTS (CONTINUED)

---

### 3. INVESTMENT TRANSACTIONS

Purchases and sales of portfolio investments, other than short-term investments, securities lending collateral, and derivative transactions, during the year ended December 31, 2017 were \$155,728,883 and \$161,697,466, respectively.

### 4. DERIVATIVES

During the year ended December 31, 2017, the Fund invested in derivative instruments. The Fund may use derivatives for a variety of purposes, including, but not limited to, the ability to gain or limit exposure to particular market sectors or securities, to provide additional income, to limit equity price risk in the normal course of pursuing its investment objectives, and/or to obtain leverage.

**Total Return Swap Agreements** — The Fund may use total return swap agreements to manage exposure to certain risks and/or to enhance performance. Total return swap agreements are bilateral contracts between the Fund and a counterparty in which the Fund, in the case of a long contract, agrees to receive the positive total return (and pay the negative total return) of an underlying equity security and to pay a financing amount, based on a notional amount and a referenced interest rate, over the term of the contract. In the case of a short contract, the Fund agrees to pay the positive total return (and receive the negative total return) of the underlying equity security and to receive or pay a financing rate, based on a notional amount and a referenced interest rate, over the term of the contract. The fair value of each total return swap agreement is determined daily with the change in the fair value recorded as a change in unrealized appreciation on total return swap agreements in the Statement of Operations. Upon termination of a swap agreement, the Fund recognizes a realized gain (loss) on total return swap agreements in the Statement of Operations equal to the net receivable (payable) amount under the terms of the agreement.

Total return swap agreements entail risks associated with counterparty credit, liquidity, and equity price risk. Such risks include that the Fund or the counterparty may default on its obligation, that there is no liquid market for these agreements, and that there may be unfavorable changes in the price of the underlying equity security. To mitigate the Fund's counterparty credit risk, the Fund enters into master netting and collateral arrangements with the counterparty. A master netting agreement allows either party to terminate the agreement prior to termination date and to net amounts due across multiple agreements upon settlement, providing for a single net settlement with a counterparty. Pursuant to master netting arrangements, the net cumulative unrealized gain (asset) on open total return swap agreements and net cumulative unrealized loss (liability) on open total return swap agreements are presented in the Statement of Assets and Liabilities. The Fund's policy is to net all derivative instruments subject to a netting agreement. As of December 31, 2017, there were no outstanding total return swap agreements. During the year ended December 31, 2017, the average daily notional amounts of open long and (short) total return swap agreements, an indicator of the volume of activity during the period, were \$4,339,381 and \$(4,330,124), respectively.

A collateral arrangement requires each party to provide collateral with a value, adjusted daily and subject to a minimum transfer amount, equal to the net amount owed to the other party under the agreement. The counterparty provides cash collateral to the Fund and the Fund provides collateral by segregating portfolio securities, subject to a valuation allowance, into a tri-party account at its custodian. As of December 31, 2017, there were no securities pledged as collateral and no cash collateral was held by the Fund.

### 5. CAPITAL STOCK

The Fund has 5,000,000 authorized and unissued preferred shares, \$0.001 par value.

On December 20, 2017, the Fund issued 448,248 shares of its Common Stock at a price of \$18.77 per share (the average market price on December 8, 2017) to shareholders of record November 22, 2017, who elected

## NOTES TO FINANCIAL STATEMENTS (CONTINUED)

to take stock in payment of the year-end distribution from 2017 capital gain and investment income. During 2017, the Fund issued 892 shares of Common Stock at a weighted average price of \$18.85 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

On December 23, 2016, the Fund issued 462,680 shares of its Common Stock at a price of \$20.66 per share (the average market price on December 12, 2016) to shareholders of record on November 25, 2016, who elected to take stock in payment of the year-end distribution from 2016 capital gain and investment income. During 2016, the Fund issued 765 shares of Common Stock at a weighted average price of \$20.08 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Income Compensation Plan.

The Fund may purchase shares of its Common Stock from time to time, in accordance with parameters set by the Board of Directors, at such prices and amounts as the portfolio management team deems appropriate. There were no shares repurchased by the Fund in 2017 or 2016. Transactions in Common Stock for 2017 and 2016 were as follows:

	Shares		Amount	
	2017	2016	2017	2016
Shares issued in payment of distributions	449,140	463,445	\$8,430,416	\$9,574,317
Net activity under the 2005 Equity Incentive Compensation Plan	(5,249)	(4,791)	61,012	212,932
Net change	443,891	458,654	\$8,491,428	\$9,787,249

### 6. RETIREMENT PLANS

The Fund sponsors a qualified defined contribution plan for all employees with at least six months of service and a nonqualified defined contribution plan for eligible employees to supplement the qualified plan. The Fund matches employee contributions made to the plan and, subject to Board approval, may also make a discretionary contribution to the plans. During 2017, the Fund recorded matching contributions of \$119,039. As of December 31, 2017, the Fund recorded a liability in the amount of \$118,318, included in *Accrued expenses and other liabilities* in the accompanying Statement of Assets and Liabilities, representing the 2017 discretionary contribution.

### 7. EQUITY-BASED COMPENSATION

The Fund's 2005 Equity Incentive Compensation Plan, adopted at the 2005 Annual Meeting and reapproved at the 2010 Annual Meeting, expired on April 27, 2015. Restricted stock awards granted prior to the Plan's expiration remain outstanding as of December 31, 2017 and vest on various dates through September 2, 2018, provided the service condition set forth in the award at grant is satisfied. Also outstanding are restricted stock units granted to non-employee directors that are 100% vested, but payment of which has been deferred at the election of the director.

Outstanding awards were granted at fair market value on grant date (determined by the average of the high and low price on that date). Awards earn an amount equal to the Fund's per share distribution, payable in either cash (employees) or reinvested shares (non-employee directors). Reinvested shares are fully vested

## NOTES TO FINANCIAL STATEMENTS (CONTINUED)

and paid concurrently with the payment of the original share grant. A summary of the activity related to nonvested restricted shares and restricted stock units for the year ended December 31, 2017 is as follows:

Awards	Shares/Units	Weighted Average Grant-Date Fair Value
Balance at December 31, 2016	52,603	\$26.59
Reinvested dividend equivalents	892	18.85
Vested & issued	(15,408)	26.49
Balance at December 31, 2017	38,087	\$26.44

Compensation cost is based on the fair market value of the award on grant date and recognized on a straight-line basis over the vesting period. Any compensation cost recognized related to an award that is subsequently forfeited due to unmet service conditions is reversed. Total compensation cost related to equity-based compensation for the year ended December 31, 2017 was \$164,599. As of December 31, 2017, the Fund had unrecognized compensation cost of \$8,787, a component of additional capital surplus, related to nonvested awards that will be recognized over a weighted average period of 0.64 years. The total fair value of awards vested and issued during the year ended December 31, 2017 was \$304,046.

### 8. OFFICER AND DIRECTOR COMPENSATION

The aggregate remuneration paid by the Fund during the year ended December 31, 2017 to officers and directors amounted to \$3,129,151, of which \$457,500 was paid to independent directors. These amounts represent the taxable income to the Fund's officers and directors and, therefore, may differ from the amounts reported in the accompanying Statement of Operations that are recorded and expensed in accordance with GAAP.

### 9. PORTFOLIO SECURITIES LOANED

The Fund makes loans of securities to approved brokers to earn additional income. The loans are collateralized by cash and/or U.S. Treasury and government agency obligations valued at 102% of the value of the securities on loan. The market value of the loaned securities is calculated based upon the most recent closing prices and any additional required collateral is delivered to the Fund on the next business day. On loans collateralized by cash, the cash collateral is invested in a registered money market fund. The Fund accounts for securities lending transactions as secured financing and retains a portion of the income from lending fees and interest on the investment of cash collateral. The Fund also continues to receive dividends on the securities loaned. Gain or loss in the fair value of securities loaned that may occur during the term of the loan will be for the account of the Fund. At December 31, 2017, the Fund had no securities on loan. The Fund is indemnified by the Custodian, serving as lending agent, for the loss of loaned securities and has the right under the lending agreement to recover the securities from the borrower on demand.

## NOTES TO FINANCIAL STATEMENTS (CONTINUED)

---

### 10. OPERATING LEASE COMMITMENTS

The Fund and its affiliated companies lease office space and equipment under operating lease agreements expiring at various dates through the year 2026. The Fund recognized rental expense of \$121,630 in 2017, and its estimated portion of the minimum rental commitments are as follows:

2018	\$127,603
2019	100,696
2020	102,399
2021	100,513
2022	102,952
Thereafter	428,543
Total	<u>\$962,706</u>

## FINANCIAL HIGHLIGHTS

	Year Ended December 31,				
	2017	2016	2015	2014	2013
<b>Per Share Operating Performance</b>

**To the Board of Directors and Shareholders of Adams Natural Resources Fund, Inc.**

***Opinion on the Financial Statements***

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Adams Natural Resources Fund, Inc. (the "Fund") as of December 31, 2017, the related statement of operations for the year ended December 31, 2017, the statement of changes in net assets for each of the two years in the period ended December 31, 2017, including the related notes, and the financial highlights for each of the five years in the period ended December 31, 2017 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of Fund as of December 31, 2017, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended December 31, 2017 and the financial highlights for each of the five years in the period ended December 31, 2017 in conformity with accounting principles generally accepted in the United States of America.

***Basis for Opinion***

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2017 by correspondence with the custodian and transfer agent. We believe that our audits provide a reasonable basis for our opinion.

**PricewaterhouseCoopers LLP**

Baltimore, MD  
February 16, 2018

We have served as the Fund's auditor since 1929.

\* The annual distribution rate is the total dividends and distributions per share divided by the Fund's average month-end stock price. For years prior to 2012, the average month-end stock price is determined for the calendar year. For 2012 and later, the average month-end stock price is determined for the twelve months ended October 31, which is consistent with the calculation used for the annual 6% minimum distribution rate commitment adopted in September 2012.

### Annual Certification

The Fund's CEO has submitted to the New York Stock Exchange the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

### Distribution Payment Schedule

The Fund presently pays distributions four times a year, as follows: (a) three interim distributions on or about March 1, June 1, and September 1, and (b) a "year-end" distribution, payable in late December, consisting of the estimated balance of the net investment income for the year, the net realized capital gains earned through October 31 and, if applicable, a return of capital. Shareholders may elect to receive the year-end distribution in stock or cash. In connection with this distribution, all shareholders of record are sent a distribution announcement notice and an election card in mid-November. **Shareholders holding shares in "street" or brokerage accounts may make their election by notifying their brokerage house representative.**

### Electronic Delivery of Shareholder Reports

The Fund offers shareholders the benefits and convenience of viewing Quarterly and Annual Reports and other shareholder materials online. With your consent, paper copies of these documents will cease with the next mailing and will be provided via e-mail. Reduce paper mailed to your home and help lower the Fund's printing and mailing costs. To enroll, please visit the following websites:

Shareholders using brokerage accounts: <http://enroll.icsdelivery.com/PEO>

### Privacy Policy

In order to conduct its business, the Fund, through AST, collects and maintains certain nonpublic personal information about our shareholders of record with respect to their transactions in shares of our securities. This information includes the shareholder's address, tax identification or Social Security number, share balances, and dividend elections. We do not collect or maintain personal information about shareholders whose shares of our securities are held in "street name" by a financial institution such as a bank or broker.

We do not disclose any nonpublic personal information about you, our other shareholders, or our former shareholders to third parties unless necessary to process a transaction, service an account, or as otherwise permitted by law.

To protect your personal information internally, we restrict access to nonpublic personal information about our shareholders to those employees who need to know that information to provide services to our shareholders. We also maintain certain other safeguards to protect your nonpublic personal information.

### Proxy Voting Policies and Record

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities owned by the Fund and the Fund's proxy voting record for the 12-month period ended June 30, 2017 are available (i) without charge, upon request, by calling the Fund's toll free number at (800) 638-2479; (ii) on the Fund's website: [www.adamsfunds.com](http://www.adamsfunds.com) under the headings "Funds" and then "Reports & Literature"; and (iii) on the Securities and Exchange Commission's website: [www.sec.gov](http://www.sec.gov).

## OTHER INFORMATION (CONTINUED)

### Statement on Quarterly Filing of Complete Portfolio Schedule

In addition to publishing its complete schedule of portfolio holdings in the First and Third Quarter Reports to Shareholders, the Fund also files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the Commission's website: [www.sec.gov](http://www.sec.gov). The Fund's Forms N-Q may be reviewed and copied at the Commission's Public Reference Room, and information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The Fund also posts a link to its Forms N-Q on its website: [www.adamsfunds.com](http://www.adamsfunds.com); select Fund name and click the headings "Funds" and then "Reports & Literature".

### INVESTORS CHOICE

INVESTORS CHOICE is a direct stock purchase and sale plan, as well as a distribution reinvestment plan, sponsored and administered by AST. The Plan provides registered shareholders and interested first time investors an affordable alternative for buying, selling, and reinvesting in Fund shares. A brochure which further details the benefits and features of INVESTORS CHOICE as well as an enrollment form may be obtained by contacting AST.

The costs to participants in administrative service fees and brokerage commissions for each type of transaction are listed below. **Fees are subject to change at any time.**

<p><b>Fees</b></p> <p>Initial Enrollment and Optional Cash Investments:</p> <p>Service Fee \$2.50 per investment          Brokerage Commission \$0.05 per share</p> <p>Reinvestment of Dividends*:</p> <p>Service Fee 2% of amount invested  <i>(maximum of \$2.50 per investment)</i>          Brokerage Commission \$0.05 per share</p> <p>Sale of Shares:</p> <p>Service Fee \$10.00          Brokerage Commission \$0.05 per share</p> <p>Deposit of Certificates for safekeeping \$7.50  <i>(waived if sold)</i></p> <p>Book to Book Transfers Included  <i>To transfer shares to another participant or to a new participant</i></p> <p><small>* The year-end dividend and capital gain distribution will usually be made in newly issued shares of Common Stock. There are no fees or commissions in connection with this dividend and capital gain distribution when made in newly issued shares.</small></p>	<p><b>Minimum and Maximum Cash Investments:</b></p> <p>Initial minimum investment (non-holders) \$500          Minimum optional investment (existing holders) \$50</p> <p>Electronic Funds Transfer (monthly minimum) \$50</p> <p>Maximum per transaction \$25,000          Maximum per year NONE</p> <p><b>INVESTORS CHOICE Mailing Address:</b></p> <p>Attention: Dividend Reinvestment          P.O. Box 922          Wall Street Station          New York, NY 10269-0560  <b>Website:</b> <a href="http://www.astfinancial.com">www.astfinancial.com</a>  <b>E-mail:</b> <a href="mailto:info@astfinancial.com">info@astfinancial.com</a></p>
