1. SIGNIFICANT ACCOUNTING POLICIES

Petroleum & Resources Corporation (the Corporation) is registered under the Investment Company Act of 1940 as a non-diversified investment company. The Corporation is an internally-managed fund emphasizing petroleum and other natural resource investments. The investment objectives of the Corporation are preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

Security Valuation—Investments in securities traded on national security exchanges are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not available are valued at the last quoted bid price. Short-term investments (excluding purchased options) are valued at amortized cost. Purchased and written options are valued at the last quoted asked price.

Security Transactions and Investment Income—Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of identified cost. Dividend income and distributions to stockholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

2. FEDERAL INCOME TAXES

The Corporation's policy is to distribute all of its taxable income to its stockholders in compliance with the requirements of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. For federal income tax purposes, the identified cost of securities at September 30, 2007 was \$465,832,043 and net unrealized appreciation aggregated \$581,872,223, of which the related gross unrealized appreciation and depreciation were \$583,698,982 and \$1,826,759, respectively.

Distributions are determined in accordance with income tax regulations which may differ from generally accepted accounting principles. Accordingly, annual reclassifications are made within the Corporation's capital accounts to reflect income and gains available for distribution under income tax regulations. Any income tax-related interest or penalties would be classified as income tax expense.

3. INVESTMENT TRANSACTIONS

The Corporation's investment decisions are made by a committee of management, and recommendations to that committee are made by the research staff.

Purchases and sales of portfolio securities, other than options and short-term investments, during the nine months ended September 30, 2007 were \$49,571,658 and \$99,447,818, respectively. Options may be written (sold) or purchased by the Corporation. The Corporation, as writer of an option, bears the risks of possible illiquidity of the option markets and from movements in security values. The risk associated with purchasing an option is limited to the premium originally paid. A schedule of outstanding option contracts as of September 30, 2007 can be found on page 12.

Transactions in written covered call and collateralized put options during the nine months ended September 30, 2007 were as follows:

	Covered Calls		Collateralized Puts

4. CAPITAL STOCK

The Corporation has 5,000,000 authorized and unissued preferred shares, \$0.001 par value.

On December 27, 2006, the Corporation issued 1,369,675 shares of its Common Stock at a price of \$33.73 per share (the average market price on December 11, 2006) to stockholders of record on November 21, 2006 who elected to take stock in payment of the distribution from 2006 capital gain and investment income. In addition, 376 shares were issued at a weighted average price of \$33.76 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

5. RETIREMENT PLANS

The Corporation's non-contributory qualified defined benefit pension plan covers all employees with at least one year of service. In addition, the Corporation has a non-contributory nonqualified defined benefit plan which provides eligible employees with retirement benefits to supplement the qualified plan. Benefits are based on length of service and compensation during the last five years of employment.

The funded status of the plans is recognized as an asset (overfunded plan) or a liability (underfunded plan) in the Statement of Assets and Liabilities. Changes in the prior service costs and accumulated actuarial gains and losses are recognized as accumulated other comprehensive income, a component of net assets, in the year in which the changes occur.

The Corporation's policy is to contribute annually to the plans those amounts that can be deducted for federal income tax purposes, plus additional amounts as the Corporation deems appropriate in order to provide assets sufficient to meet benefits to be paid to plan participants. During the nine months ended September 30, 2007, the Corporation contributed \$23,406 to the plans and expects to contribute an additional \$307,802 to the plans during the remainder of 2007.

The following table aggregates the components of the plans' net periodic pension cost.

	Nine months ended September 30, 2007	Year ended December 31, 2006
Service Cost	\$ 261,264	\$ 334,876

Amortization of net loss	169,624	225,362
Deferred asset gain	—	31,224
Net periodic pension cost	\$ 463,632	\$ 613,748

The Corporation also sponsors a defined contribution plan that covers substantially all employees. For the nine months ended September 30, 2007, the Corporation expensed contributions of \$79,026. The Corporation does not provide postretirement medical benefits.

6. EQUITY-BASED COMPENSATION

Although the Stock Option Plan of 1985 ("1985 Plan") has been discontinued and no further grants will be made under this plan, unexercised grants of stock options and stock appreciation rights granted in 2004 and prior years remain outstanding. The exercise price of the unexercised options and related stock appreciation rights is the fair market value on date of grant, reduced by the per share amount of capital gains paid by the Corporation during subsequent years. All options and related stock appreciation rights terminate 10 years from date of grant, if not exercised.

A summary of option activity under the 1985 Plan as of September 30, 2007, and changes during the nine month period then ended is presented below:

	Options	Weighted-Average Exercise Price	Weighted-Average Remaining Life (Years)
Outstanding at December 31, 2006	83,914	\$16.19	4.46
Exercised	(23,500)	15.81	—
Outstanding at September 30, 2007	60,414	\$15.41	3.75
Exercisable at September 30, 2007	21,724	\$14.85	2.42

The options outstanding as of September 30, 2007 are set forth below:

Exercise Price	Options Outstanding	Weighted Average Exercise Price	Weighted Average Remaining Life (Years)
\$9.00-\$11.99	3,975	\$ 9.61	1.25
\$12.00-\$14.99	22,774	12.94	3.44
\$15.00-\$17.99	18,191	16.70	5.11
\$18.00-\$21.99	15,474	19.00	3.25
Outstanding at September 30, 2007	60,414	\$15.41	3.75

Compensation cost resulting from stock options and stock appreciation rights granted under the 1985 Plan is based on

the intrinsic value of the award, recognized over the award's vesting period, and remeasured at each reporting date through the date of settlement. The total compensation cost recognized for the nine months ended September 30, 2007 was \$516,577.

The 2005 Equity Incentive Compensation Plan ("2005 Plan"), adopted at the 2005 Annual Meeting, permits the grant of stock options, restricted stock awards and other stock incentives to key employees and all non-employee directors. The 2005 Plan provides for the issuance of up to 872,639 shares of the Corporation's Common Stock, including both performance and nonperformance-based restricted stock. Performance-based restricted stock awards vest at the end of a specified three year period, with the ultimate number of awards earned contingent on achievement of certain performance targets. If performance targets are not achieved, all or a portion of the performance-based awards are forfeited and become available for future grants. Nonperformance-based restricted stock awards vest ratably over a three year period and nonperformance-based restricted stock units (granted to non-employee directors) vest over a one year period. It is the current intention that employee grants will be performance-based. The 2005 Plan provides for accelerated vesting in the event of death or retirement. Non-employee directors also may elect to defer a portion of their cash compensation, with such deferred amount to be paid by delivery of deferred stock units. Outstanding awards are granted at fair market value on grant date. The number of shares of Common Stock which remain available for future grants under the 2005 Plan at September 30, 2007 is 830,890 shares.

The Corporation pays dividends and dividend equivalents on outstanding awards, which are charged to net assets when paid. Dividends and dividend equivalents paid on restricted awards that are later forfeited are reclassified to compensation expense.

A summary of the status of the Corporation's awards granted under the 2005 Plan as of September 30, 2007, and changes during the nine month period then ended is presented below:

Awards	Shares/ Units	Weighted Average Grant-Date Fair Value
Balance at December 31, 2006	21,398	\$33.16
Granted:		
Restricted stock	10,983	31.34
Restricted stock units	3,200	34.70
Deferred stock units	579	34.82
Vested	(5,542)	31.78
Forfeited	(826)	34.32
Balance at September 30, 2007 (includes 23,182 performance-based awards and 6,610 nonperformance-based awards)	29,792	\$32.91

Compensation costs resulting from awards granted under the 2005 Plan are based on the fair value of the award on grant date (determined by the average of the high and low price on grant date) and recognized on a straight-line basis over the requisite service period. For those awards with performance conditions, compensation costs are based on the most probable outcome and, if such goals are not met, compensation cost is not recognized and any previously recognized compensation cost is reversed. The total compensation costs for restricted stock granted to employees for the period ended September 30, 2007 were \$204,618. The total compensation costs for restricted stock units granted to non-employee directors for the period ended September 30, 2007 were \$89,088. As of September 30, 2007, there were total unrecognized compensation costs of \$520,756, a component of additional capital surplus, related to nonvested equity-based compensation arrangements granted under the 2005 Plan. Those costs are expected to be recognized over a weighted average period of 1.64 years.

7. OFFICER AND DIRECTOR COMPENSATION

The aggregate remuneration paid during the nine months ended September 30, 2007 to officers and directors amounted to \$1,905,113, of which \$233,741 was paid as fees and compensation to directors who were not officers. These amounts represent the taxable income to the Corporation's officers and directors and therefore differ from the amounts reported in the accompanying Statement of Operations that are recorded and expensed in accordance with generally accepted accounting principles.

8. PORTFOLIO SECURITIES LOANED

The Corporation makes loans of securities to brokers, secured by cash deposits, U.S. Government securities, or bank letters of credit. The Corporation accounts for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Corporation also continues to receive interest or dividends on the securities loaned. The loans are secured at all times by collateral of at least 102% of the fair value of the securities loaned plus accrued interest. Gain or loss in the fair value of securities loaned that may occur during the term of the loan will be for the account of the Corporation. At September 30, 2007, the Corporation had securities on loan of \$60,681,454 and held collateral of \$62,045,317, consisting of an investment trust fund which may invest in money market instruments, commercial paper, repurchase agreements, U.S. Treasury Bills, and U.S. agency obligations.
