

ADAMS DIVERSIFIED EQUITY FUND

# SEMI-ANNUAL REPORT JUNE 30, 2022

GET THE LATEST NEWS AND INFORMATION adamsfunds.com/sign-up Dear Fellow Shareholders,

In the first six months of 2022, investors faced a long list of challenges that drove market volatility and heightened concerns about a potential recession. Inflation continued to run hot, with the U.S. Consumer Price Index accelerating to a 42-year high annual rate of 9.1% in June. Persistent supply-chain disruptions, the war in Ukraine, and COVID-19 lockdowns in China drove further price increases across virtually every category—food, housing, energy, producer goods, and wages—around the globe. The U.S. Federal Reserve (Fed) raised the Federal Funds rate by 75 basis points in June, following smaller hikes in March and May, as the central bank attempts to rein in inflation without pushing the economy into recession. In late June, Fed Chair Jerome Powell acknowledged the risk, but said restoring price stability is the central bank's primary goal.

"In times like these, stock selection becomes increasingly important, and we remain focused on executing our disciplined investment approach." The S&P 500 Index entered a bear market (down 20% from early January's all-time high) in early June for the seventh time in the last 50 years. The Index finished the first half with a -20.0% return, its weakest performance over the first two quarters of the year since 1970. Our Fund slightly outperformed the benchmark, returning -19.7%.

Energy was the only S&P 500 sector to advance in the first half of 2022, generating a 31.8% return. An imbalance between supply and demand, exacerbated by the war in Ukraine, continued to put upward pressure on oil prices. West Texas Intermediate crude oil prices rose almost 40%

in the first six months of the year, reaching a 13-year high of over \$120-perbarrel, before pulling back slightly to close the period. Other than Energy, defensive sectors such as Utilities and Consumer Staples were the best performers in the Index. The Consumer Discretionary, Communication Services, and Technology sectors, which led markets higher over the last decade-plus and through the bull market that began in early 2020, were the weakest performers.

The big question, amid the pressure points of inflation and interest rate hikes, is the resiliency of the American consumer, a key driver of economic growth since the depths of the pandemic. Consumer sentiment fell to its lowest level ever in June, according to a closely watched survey by the University of Michigan, and consumer spending has shown signs of slowing. Recession fears continued to grow, with a June survey revealing that nearly 70% of economists expect a U.S. recession in 2023. Yet, the job market has not faltered thus far, with the jobless rate in June still below December 2021 levels and fewer Americans (1.3 million)

collecting federal unemployment than the average level for the three years prior to the pandemic (1.7 million). That figure reached about 6.5 million during the Great Recession.

For our Fund, Industrials, Health Care, and Consumer Discretionary were the primary contributors to relative performance in the first half, while Real Estate and Financials were the biggest detractors.

Our holdings in Industrials returned -9.3%, outperforming the sector's benchmark decline of -16.9%. The capital goods industry drove relative gains, led by our position in Quanta Services, a leading end-to-end solutions provider to the electric power sector. We believe the company will be a prime beneficiary of the significant investment in utility infrastructure necessary to support the expected increase in electricity demand implied by a greater focus on renewable energy sources.

The Health Care sector, which outperformed the S&P 500 Index by more than ten percentage points during the first half of 2022, also contributed on a relative basis. Our overweight position in managed care companies, including UnitedHealth Group and Centene Corporation, benefited the Fund as they continue to show strong profitability even in a less certain economic environment. Our position in Eli Lilly also had a positive impact on performance. It is our belief Lilly has the best growth profile among the large pharmaceutical companies and offers the most potential for positive earnings revisions going forward.

Our investments in the Real Estate sector, which make up a small percentage of the Fund, generated a return of -31.7%, lagging the benchmark's -20.0% return. The sector is sensitive to interest rate increases, and mortgage rates surged in June to their highest level since 2008. Retail REITs, and an overweight position in Simon Property Group in particular, weighed on relative performance. Our position in Prologis also detracted from performance. The company, which is the nation's largest provider of warehouse space, was adversely impacted by news that Amazon.com expects to slow the growth rate of its demand for warehouse space.

Looking ahead, we recognize that investors are concerned about volatility, inflation, and a potential recession. We will continue to closely monitor all of these macroeconomic stress points. However, as we head into the second half of 2022, we feel as though the market has already priced in a mild recession, and it is far from certain that a recession is imminent, or that inflation will heat up further. When the Fed takes dramatic action, as it has recently, those moves take time to work through the system and it will likely be a while before there is clarity. In times like these, stock selection becomes increasingly important, and we remain focused on executing our disciplined investment approach.

For the six months ended June 30, 2022, the total return on the Fund's net asset value ("NAV") per share (with dividends and capital gains reinvested) was -19.7%. This compares to a -20.0% total return for both the S&P 500 and the Morningstar U.S. Large Blend category over the same time period. The total return on the market price of the Fund's shares for the period was -20.5%.

For the twelve months ended June 30, 2022, the Fund's total return on NAV was -9.4%. Comparable figures for the S&P 500 and the Morningstar U.S. Large Blend category were -10.6% and -11.6%, respectively. The Fund's total return on market price was -10.2%.

During the first half of this year, the Fund paid distributions to shareholders in the amount of \$11.8 million, or \$.10 per share, consisting of \$.01 short-term capital gain and \$.02 long-term capital gain, realized in 2021, and \$.07 of net investment income realized in 2022, all taxable in 2022. On July 21, 2022, an additional net investment income dividend of \$.05 per share was declared for payment on September 1, 2022. These constitute the first three payments toward our annual 6% minimum distribution rate commitment.

We recognize the first half of 2022 has not been easy. Given the range of concerns, including the Fed's efforts to engineer a soft landing and the war in Ukraine, the market feels a little uncertain as we look ahead to the rest of the year. It is times like these when a dose of perspective can be helpful. From March of 2009, when the S&P 500 touched a Great Recession bottom, the index advanced more than 800% through the beginning of 2022, gaining nearly 19% annually. But it was not always a smooth ride. That period featured no fewer than six double-digit pullbacks, including a decline of more than 30% at the onset of the pandemic.

We do not make predictions about macroeconomic factors or the direction of the market. However, decades of investment experience have given us important perspective: don't let fear dictate your investment philosophy or alter your long-term plan. Periodic downturns and bear markets are part of investing, and they are healthy for long-term investors. At some point, they provide opportunities. We appreciate the opportunity to help you reach your investment goals and remain focused on delivering consistent returns over the long term.

By order of the Board of Directors,

Mark E. Stoeckle Chief Executive Officer & President July 21, 2022

Adams Diversified Equity Fund, Inc. (the "Fund") is registered under the Investment Company Act of 1940 ("1940 Act") as a diversified investment company. The Fund is an internally managed closed-end fund whose investment objectives are preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

## **1. SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation** — The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for investment companies, which require the use of estimates by Fund management. Management believes that estimates and valuations are appropriate; however, actual results may differ from those estimates and the valuations reflected in the financial statements may differ from the value the Fund ultimately realizes. Additionally, unpredictable events such as natural disasters, war, terrorism, global pandemics, and similar public health threats may significantly affect the economy, markets, and companies in which the Fund invests. The Fund could be negatively impacted if the value of portfolio holdings are harmed by such events.

**Affiliates** — The 1940 Act defines "affiliated companies" as those companies in which the Fund owns 5% or more of the outstanding voting securities. Additionally, those companies in which the Fund owns more than 25% of the outstanding voting securities are considered to be "controlled" by the Fund. The Fund and its affiliates, Adams Natural Resources Fund, Inc. ("PEO") and Adams Funds Advisers, LLC ("AFA"), have a shared management team.

**PEO** — The Fund owns 2,186,774 shares of PEO, a non-diversified, closed-end investment company, representing 8.9% of its outstanding shares. The Fund accounts for PEO as a portfolio investment that meets the definition of a non-controlled affiliate. Directors of the Fund are also directors of PEO.

**AFA** — In April 2015, Fund shareholders authorized the Fund to provide investment advisory services to external parties, and the Securities and Exchange Commission granted no-action relief under section 12(d)(3) of the 1940 Act to allow the Fund to create a separate, wholly-owned entity for this purpose. The Fund provided the initial capital for the start-up costs of AFA, a Maryland limited liability company, and the Fund is the sole member and General Manager, as provided by the Operating Agreement between AFA and the Fund. This structure mitigates the risk of potential liabilities for the Fund associated with any claims that may arise against AFA during the ordinary course of conducting its business. Given that AFA is an operating company that provides no services to the Fund, the Fund accounts for AFA as a portfolio investment that meets the definition of a controlled affiliate.

AFA's profit is dependent on it having assets under management. At June 30, 2022, AFA had no assets under management. Failure to develop new relationships will impact AFA's ability to generate revenue, and accordingly, the Fund's valuation of its investment in AFA. While unlikely, to the extent that AFA's operating costs exceed its assets held, the Fund may be required to provide additional capital to AFA to sustain its operations. For tax purposes, AFA's operating income (or loss) is consolidated with that of the Fund.

**Expenses** — The Fund and its affiliates share personnel, systems, and other infrastructure items and are charged a portion of the shared expenses. To protect the Fund from potential conflicts of interest, policies and procedures are in place covering the sharing of expenses among the entities. Expenses solely attributable to an entity are

charged to that entity. Expenses that are not solely attributable to one entity are allocated in accordance with the Fund's expense sharing policy. The Fund's policy dictates that expenses, other than those related to personnel, are attributed to AFA based on the average estimated amount of time spent by all personnel on AFA-related activities relative to overall job functions; the remaining portion is attributed to the Fund and PEO based on relative net assets. Personnel-related expenses are attributed to AFA based on the individual's time spent on AFA-related activities; the remaining portion is attributed to the Fund and PEO based on relative market values of portfolio securities covered for research staff and relative net assets for all others. Expense allocations are updated quarterly. Because AFA has no assets under management, only those expenses directly attributable to AFA are charged to AFA.

For the six months ended June 30, 2022, shared expenses totaled \$8,819,111, of which \$1,754,385 and \$814 were charged to PEO and AFA, respectively, in accordance with the Fund's expense sharing policy. There were no amounts due to, or due from, its affiliates at June 30, 2022.

**Investment Transactions, Investment Income, and Distributions** — The Fund's investment decisions are made by the portfolio management team with recommendations from the research staff. Policies and procedures are in place covering the allocation of investment opportunities among the Fund and its affiliates to protect the Fund from potential conflicts of interest. Investment transactions are accounted for on trade date. Realized gains and losses on sales of investments are recorded on the basis of specific identification. Dividend income and distributions to shareholders are recognized on the ex-dividend date.

**Valuation** — The Fund's financial instruments are reported at fair value, which is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Fund has a Valuation Committee ("Committee") so that financial instruments are appropriately priced at fair value in accordance with GAAP and the 1940 Act. Subject to oversight and approval by the Board of Directors, the Committee establishes methodologies and procedures to value securities for which market quotations are not readily available.

GAAP establishes the following hierarchy that categorizes the inputs used to measure fair value:

- Level 1 fair value is determined based on market data obtained from independent sources; for example, quoted prices in active markets for identical investments;
- Level 2 fair value is determined using other assumptions obtained from independent sources; for example, quoted prices for similar investments;
- Level 3 fair value is determined using the Fund's own assumptions, developed based on the best information available under the circumstances.

Investments in securities traded on national exchanges are valued at the last reported sale price as of the close of regular trading on the relevant exchange on the day of valuation. Over-the-counter and listed equity securities for which a sale price is not available are valued at the last quoted bid price. Money market funds are valued at net asset value. These securities are generally categorized as Level 1 in the hierarchy.

Total return swap agreements are valued using independent, observable inputs, including underlying security prices, dividends, and interest rates. These securities are generally categorized as Level 2 in the hierarchy.

The Fund's investment in its controlled affiliate, AFA, is valued by methods deemed reasonable in good faith by the Committee. Because AFA has no client assets under management, the Committee uses AFA's total assets, comprised solely of cash, to approximate fair value. There was no uncertainty surrounding this input at the reporting date. Fair value determinations are reviewed on a regular basis and updated as needed. Given the absence of market quotations or observable inputs, the Fund's investment in AFA is categorized as Level 3 in the hierarchy.

At June 30, 2022, the Fund's financial instruments were classified as follows:

	Level 1	Level 2	Level 3	Total
Assets:				
Common stocks	\$2,104,789,698	\$—	\$ —	\$2,104,789,698
Other investments	—	—	466,000	466,000
Short-term investments	16,090,250	_	_	16,090,250
Total investments	\$2,120,879,948	\$—	\$466,000	\$2,121,345,948

The following is a reconciliation of the change in the value of Level 3 investments:

Balance at December 31, 2021	\$ 466,000
Purchases	_
Change in unrealized appreciation on investments in the	
Statement of Operations	—
Balance at June 30, 2022	\$ 466,000

## 2. FEDERAL INCOME TAXES

No federal income tax provision is required since the Fund's policy is to qualify as a regulated investment company under the Internal Revenue Code and to distribute substantially all of its taxable income and gains to its shareholders. Additionally, management has analyzed the tax positions included in federal income tax returns from the previous three years that remain subject to examination, and concluded no provision was required. Any income tax-related interest or penalties would be recognized as income tax expense. At June 30, 2022, the identified cost of securities for federal income tax purposes was \$1,470,134,181 and net unrealized appreciation aggregated \$651,211,767, consisting of gross unrealized appreciation of \$751,658,182 and gross unrealized depreciation of \$100,446,415.

Distributions are determined in accordance with the Fund's annual 6% minimum distribution rate commitment, based on the Fund's average market price, and income tax regulations, which may differ from GAAP. Such differences are primarily related to the Fund's retirement plans, equity-based compensation, wash sales, tax straddles for total return swaps, and investment in AFA. Differences that are permanent are reclassified in the capital accounts of the Fund's annual financial statements and have no impact on net assets.

## **3. INVESTMENT TRANSACTIONS**

Purchases and sales of portfolio investments, other than short-term investments, securities lending collateral, and derivative transactions, during the six months ended June 30, 2022 were \$931,679,300 and \$931,834,718, respectively.

## 4. DERIVATIVES

The Fund may invest in derivative instruments. The Fund uses derivatives for a variety of purposes, including, but not limited to, the ability to gain or limit exposure to particular market sectors or securities, to provide additional capital gains, to limit equity price risk in the normal course of pursuing its investment objectives, and/or to obtain leverage.

Total Return Swap Agreements - The Fund utilizes total return swap agreements in carrying out a paired trade strategy, where it enters into a long contract for a single stock and a short contract for a sector exchange-traded fund in comparable notional amounts. Total return swap agreements involve commitments based on a notional amount to pay interest in exchange for a market-linked return of a reference security. Upon closing a long contract, the Fund will receive a payment to the extent the total return of the reference security is positive for the contract period and exceeds the offsetting interest rate obligation or will make a payment if the total return is negative for the contract period. Upon closing a short contract, the Fund will receive a payment to the extent the total return of the reference security is negative for the contract period and exceeds the offsetting interest rate obligation or will make a payment if the total return is positive for the contract period. The fair value of each total return swap agreement is determined daily and the change in value is recorded as a change in unrealized appreciation on total return swap agreements in the Statement of Operations. Payments received or made upon termination during the period are recorded as a realized gain or loss on total return swap agreements in the Statement of Operations.

Total return swap agreements entail risks associated with counterparty credit, liquidity, and equity price risk. Such risks include that the Fund or the counterparty may default on its obligation, that there is no liquid market for these agreements, and that there may be unfavorable changes in the price of the reference security. To mitigate the Fund's counterparty credit risk, the Fund enters into master netting and collateral arrangements with the counterparty. A master netting agreement allows either party to terminate the agreement prior to termination date and provides the ability to offset amounts the Fund owes the counterparty against the amounts the counterparty owes the Fund for a single net settlement. The Fund's policy is to net all derivative instruments subject to a netting agreement and offset the value of derivative liabilities against the value of derivative assets. The net cumulative unrealized gain (asset) on open total return swap agreements is presented in the Statement of Assets and Liabilities. At June 30, 2022, there were no open total return swap agreements. During the six months ended June 30, 2022, the Fund did not invest in total return swap agreements.

A collateral arrangement requires each party to provide collateral with a value, adjusted daily and subject to a minimum transfer amount, equal to the net amount owed to the other party under the agreement. The counterparty provides cash collateral to the Fund and the Fund provides collateral by segregating portfolio securities, subject to a valuation allowance, into a tri-party account at its custodian. At June 30, 2022, there were no securities pledged as collateral and no cash collateral was held by the Fund.

## 5. CAPITAL STOCK

The Fund has 10,000,000 authorized and unissued preferred shares, \$0.001 par value.

During the six months ended June 30, 2022, the Fund issued 1,393 shares of its Common Stock at a weighted average price of \$17.91 per share as dividend equivalents to holders of deferred stock units under the 2005 Equity Incentive Compensation Plan.

## NOTES TO FINANCIAL STATEMENTS (CONTINUED)

On December 22, 2021, the Fund issued 6,840,167 shares of its Common Stock at a price of \$19.14 per share (the average market price on December 8, 2021) to shareholders of record November 22, 2021, who elected to take stock in payment of the year-end distribution. During the year ended December 31, 2021, the Fund issued 5,446 shares of Common Stock at a weighted average price of \$19.03 per share as dividend equivalents to holders of deferred stock units under the 2005 Equity Incentive Compensation Plan.

The Fund may purchase shares of its Common Stock from time to time, in accordance with parameters set by the Board of Directors, at such prices and amounts as the portfolio management team deems appropriate. Additionally, the Fund will repurchase shares under the Fund's enhanced discount management and liquidity program when the discount exceeds 15% of net asset value for at least 30 consecutive trading days. The enhanced program also provides that the Fund will engage in a proportional tender offer to repurchase shares when the discount exceeds 19% of net asset value for 30 consecutive trading days, not to exceed one such offer in any twelve-month period. Transactions in its Common Stock for 2022 and 2021 were as follows:

	Shares		Amount	
	Six months		Six months	
	ended	Year ended	ended	Year ended
	June 30,	December 31,	June 30,	December 31,
	2022	2021	2022	2021
Shares issued in payment of				
distributions	1,393	6,845,613	\$25,011	\$131,024,412
Shares canceled	_	(895)		
Net change	1,393	6,844,718	\$25,011	\$131,024,412

## 6. RETIREMENT PLANS

The Fund sponsors a qualified defined contribution plan for all employees with at least six months of service and a nonqualified defined contribution plan for eligible employees to supplement the qualified plan. The Fund matches employee contributions made to the plans and, subject to Board approval, may also make a discretionary contribution to the plans. During the six months ended June 30, 2022, the Fund recorded matching contributions of \$381,722 and a liability, representing the 2022 discretionary contribution, of \$189,445.

## 7. EQUITY-BASED COMPENSATION

The Fund's 2005 Equity Incentive Compensation Plan, adopted at the 2005 Annual Meeting and reapproved at the 2010 Annual Meeting, expired on April 27, 2015. Restricted stock units granted to nonemployee directors that are 100% vested, but payment of which has been deferred at the election of the director, remain outstanding at June 30, 2022.

Outstanding awards were granted at fair market value on grant date (determined by the average of the high and low price on that date) and earn an amount equal to the Fund's per share distribution, payable in reinvested shares, which are paid concurrently with the payment of the original share grant. A summary of the activity during the six months ended June 30, 2022 is as follows:

Awards	Units	Weighted Average Grant-Date Fair Value
Balance at December 31, 2021	47,108	\$13.29
Reinvested dividend equivalents	1,393	17.91
Issued	(14,812)	14.45
Balance at June 30, 2022	33,689	\$12.97

At June 30, 2022, the Fund had no unrecognized compensation cost. The total fair value of awards issued during the six months ended June 30, 2022 was \$270,111.

## 8. OFFICER AND DIRECTOR COMPENSATION

The aggregate remuneration paid by the Fund during the six months ended June 30, 2022 to officers and directors amounted to \$6,460,144, of which \$522,944 was paid to independent directors. These amounts represent the taxable income, including \$270,111 in deferred director compensation from previous years, to the Fund's officers and directors and, therefore, may differ from the amounts reported in the accompanying Statement of Operations that are recorded and expensed in accordance with GAAP. At June 30, 2022, \$2,367,492 was due to officers and directors, representing amounts related to estimated cash compensation and estimated retirement plan discretionary contributions payable to officers, and reinvested dividend payments on deferred stock awards payable to directors.

## 9. PORTFOLIO SECURITIES LOANED

The Fund makes loans of securities to approved brokers to earn additional income. The loans are collateralized by cash and/or U.S. Treasury and government agency obligations valued at 102% of the value of the securities on loan. The market value of the loaned securities is calculated based upon the most recent closing prices and any additional required collateral is delivered to the Fund on the next business day. On loans collateralized by cash, the cash collateral is invested in a registered money market fund. The Fund accounts for securities lending transactions as secured financing and retains a portion of the income from lending fees and interest on the investment of cash collateral. The Fund also continues to receive dividends on the securities loaned. Gain or loss in the fair value of securities loaned that may occur during the term of the loan will be for the account of the Fund. At June 30, 2022, the Fund had no securities on loan. The Fund is indemnified by the custodian, serving as lending agent, for the loss of loaned securities and has the right under the lending agreement to recover the securities from the borrower on demand.

## 10. LEASES

The Fund and its affiliates jointly lease office space and equipment under non-cancelable lease agreements expiring at various dates through 2026. Payments are made in aggregate pursuant to these agreements but are deemed variable for each entity, as the allocable portion to each entity fluctuates when applying the expense sharing policy among all affiliates at each payment date. Variable payments of this nature do not require recognition of an asset or an offsetting liability in the Statement of Assets and Liabilities and are recognized as rental expense on a straight-line basis over the lease term within occupancy and other office expenses in the Statement of Operations. During the six months ended June 30, 2022, the Fund recognized rental expense of \$194,927.

(a) Total investment return is calculated assuming a purchase of a Fund share at the beginning of the period and a sale on the last day of the period reported either at net asset value or market price per share, excluding any brokerage commissions. Distributions are assumed to be reinvested at the price received in the Fund's dividend reinvestment plan.

(b) Ratios and portfolio turnover presented on an annualized basis.

The transactions presented above are those that exceeded .50% of period-end net assets, representing new positions, fully-eliminated positions, and the largest net additions and reductions to existing portfolio securities, as noted, and exclude those in sector exchange-traded funds.

### Disclaimers

This report is transmitted to the shareholders of the Fund for their information. It is not a prospectus, circular or representation intended for use in the purchase or sale of shares of the Fund or of any securities mentioned in the report. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if sold, may be worth more or less than their original cost. Past performance is no guarantee of future investment results.

This report contains "forward-looking statements" within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934. By their nature, all forward-looking statements involve risks and uncertainties, and actual results could differ materially from those contemplated by the forward-looking statements. Several factors that could materially affect the Fund's actual results are the performance of the portfolio of stocks held by the Fund, the conditions in the U.S. and international financial markets, the price at which shares of the Fund will trade in the public markets, and other factors discussed in the Fund's periodic filings with the Securities and Exchange Commission.

(unaudited)

Total

\* The annual distribution rate is the total dividends and distributions per share divided by the Fund's average month-end stock price. The average month-end stock price is determined for the twelve months ended October 31, which is consistent with the calculation used for the annual 6% minimum distribution rate commitment adopted in September 2011.

\*\* Includes amounts declared but not yet paid.

## ANNUAL MEETING OF STOCKHOLDERS

### (unaudited)

The Annual Meeting of Stockholders was held on April 21, 2022. The following votes were cast for directors:

	Votes For	Votes Withheld
Kenneth J. Dale	85,435,380	4,841,545
Frederic A. Escherich	85,436,876	4,840,049
Mary Chris Jammet	86,459,558	3,817,367
Lauriann C. Kloppenburg	86,480,059	3,796,866
Kathleen T. McGahran	85,448,950	4,827,975
Jane Musser Nelson	87,458,031	2,818,894
Mark E. Stoeckle	85,531,181	4,745,744

A proposal to ratify the selection of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Fund for 2022 was approved with 87,742,107 votes for, 1,817,687 votes against, and 717,131 shares abstaining.

(unaudited)

## **Distribution Commitment and Payment Schedule**

The Fund established an annual 6% minimum distribution rate commitment that has been met or exceeded since its adoption in 2011. The commitment is not a guarantee, and may be changed by the Board should market or other conditions warrant. Distributions are generated from portfolio income and capital gains derived from managing the portfolio. If such earnings do not meet the distribution commitment, or it's deemed in the best interest of shareholders, the Fund may return capital.

The Fund presently pays distributions four times a year, as follows: (a) three interim distributions on or about March 1, June 1, and September 1, and (b) a "year-end" distribution, payable in late December, consisting of the estimated balance of the net investment income for the year, the net realized capital gains earned through October 31 and, if applicable, a return of capital. Shareholders may elect to receive the year-end distribution in stock, cash, or both. In connection with this distribution, all shareholders of record are sent a distribution announcement notice and an election card in mid-November. Shareholders holding shares in "street" or brokerage accounts make their election by notifying their brokerage house representative.

## **Electronic Delivery of Shareholder Reports**

The Fund offers shareholders the benefits and convenience of viewing Quarterly and Annual Reports and other shareholder materials online. With your consent, paper copies of these documents will cease with the next mailing and will be provided via e-mail. Reduce paper mailed to your home and help lower the Fund's printing and mailing costs. To enroll, please visit the following websites:

Registered shareholders with the Fund's transfer agent, American Stock Transfer & Trust Company ("AST"): *www.astfinancial.com* 

Shareholders using brokerage accounts: http://enroll.icsdelivery.com/ADX

## **Proxy Voting Policies and Record**

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities owned by the Fund and the Fund's proxy voting record for the 12-month period ended June 30, 2022 are available (i) without charge, upon request, by calling the Fund's toll free number at (800) 638-2479; (ii) on the Fund's website: *www.adamsfunds.com*; and (iii) on the Securities and Exchange Commission's website: *www.sec.gov*.

## Statement on Quarterly Filing of Complete Portfolio Schedule

In addition to publishing its complete schedule of portfolio holdings in the First and Third Quarter Reports to Shareholders, the Fund also files its complete schedule of portfolio holdings for the first and third quarters of each fiscal year with the Securities and Exchange Commission on Form N-PORT. The form is available on the Commission's website: *www.sec.gov.* The Fund also posts a link to its filings on its website: *www.adamsfunds.com.*
