It is with great sadness that we inform you that our director and former Chairman, W. David MacCallan, passed away on August 19. Mr. MacCallan was first employed by the Company in 1955, was elected Chairman of the Board in 1971, and retired in 1991 while continuing to serve on the Board of Directors until his death. It was our great pleasure to work closely with Mr. MacCallan. His grasp of the nuances of the business of investing was rare in the industry and his loyalty to the Company and its shareholders was unswerving. We have lost a great leader and advisor. Our deepest sympathies go out to his immediate family as well as to his extended family.

The Company is an internally-managed equity fund whose investment policy is based on the primary objectives of preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

By order of the Board of Directors,

Douglas G. Ober,
*Chairman and
Chief Executive Officer*

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. Significant Accounting Policies

The Adams Express Company (the Company) is registered under the Investment Company Act of 1940 as a diversified investment company. The Company's investment objectives as well as the nature and risk of its investment transactions are set forth in the Company's registration statement.

Security Valuation — Investments in securities traded on a national security exchange are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not available are valued at the last quoted bid price. Short-term investments (excluding purchased options) are valued at amortized cost. Purchased and written options are valued at the last quoted asked price.

Affiliated Companies — Investments in companies 5% or more of whose outstanding voting securities are held by the Company are defined as "Affiliated Companies" in Section 2(a)(3) of the Investment Company Act of 1940.

Security Transactions and Investment Income — Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of identified cost. Dividend income and distributions to shareholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

2. Federal Income Taxes

The Company's policy is to distribute all of its taxable income to its shareholders in compliance with the requirements of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. For federal income tax purposes, the identified cost of securities at September 30, 2005 was \$954,779,755 and net unrealized appreciation aggregated \$326,008,685, of which the related gross unrealized appreciation and depreciation were \$439,609,769 and \$113,601,084, respectively.

Distributions are determined in accordance with income tax regulations which may differ from generally accepted accounting principles. Accordingly, annual reclassifications are made within the Company's capital accounts to reflect income and gains available for distribution under income tax regulations.

3. Investment Transactions

The Company's investment decisions are made by a committee of management, and recommendations to that committee are made by the research staff.

Purchases and sales of portfolio securities, other than options and short-term investments, during the nine months ended September 30, 2005 were \$116,372,809 and \$158,130,759, respectively. Options may be written (sold) or purchased by the Company. The Company, as writer of an option, bears the risks of possible illiquidity of the option markets and from movements in security values. The risk associated with purchasing an option is limited to the premium originally paid. A schedule of outstanding option contracts as of September 30, 2005 can be found on page 12.

6. Stock-Based Compensation

The Stock Option Plan adopted in 1985 ("1985 Plan") permits the issuance of stock options and stock appreciation rights for the purchase of up to 2,610,146 shares of the Company's Common Stock at the fair market value on the date of grant. The exercise price of the options and related stock appreciation rights is reduced by the per share amount of capital gains paid by the Company during subsequent years. Options are exercisable beginning not less than one year after the date of grant and stock appreciation rights are exercisable beginning not less than two years after the date of grant. The stock appreciation rights allow the holders to surrender their rights to exercise their options and receive cash in an amount equal to the difference between the option exercise price and the fair market value of the Common Stock at the date of surrender. All options terminate 10 years from the date of grant if not exercised. With the adoption of the 2005 Equity Incentive Compensation Plan ("2005 Plan") at the 2005 Annual Meeting, no further grants will be made under the 1985 Plan, although unexercised awards granted in 2004 and prior years remain outstanding.

A summary of option activity under the 1985 Plan as of September 30, 2005, and changes during the period then ended is presented below:

	Options	Weighted-Average Exercise Price	Weighted-Average Remaining Life (Years)
Outstanding at January 1, 2005	283,297	\$11.76

The total compensation cost recognized for the nine months ended September 30, 2005 was \$(51,237).

The 2005 Plan permits the grant of stock options, restricted stock awards and other stock incentives to key employees and all non-employee directors. The 2005 Plan provides for the issuance of up to 3,413,131 shares of the Company's Common Stock. Restricted stock was granted to key employees on April 27, 2005 at fair market value on that date, vesting over a three year period. Restricted stock units were granted to non-employee directors on April 27, 2005 at fair market value on that date and vest over a one year period. The total fair value of units that vested in 2005 was \$9,889. The number of shares of Common Stock which remain available for future grants under the Plan at September 30, 2005 is 3,392,440 shares. The Company pays dividends and dividend equivalents on outstanding awards, which are charged to net assets when paid. Dividends and dividend equivalents paid on restricted awards that are later forfeited are reclassified to compensation expense.

A summary of the status of the Company's awards granted as of September 30, 2005, and changes during the period then ended is presented below:

Awards	Shares/Units	Grant-Date Fair Value
Balance at January 1, 2005	—	—
Granted:		
Restricted stock	13,941	\$12.56
Restricted stock units	6,750	12.56
Vested	(750)	13.19
Forfeited	—	—
Balance at September 30, 2005	19,941	\$12.56

Compensation costs resulting from restricted stock and restricted stock units granted under the 2005 Plan are recognized over the requisite service period based on the fair value of the awards on grant date. Any unearned compensation is included in "Undistributed net investment income" and is subsequently expensed as services are rendered. The fair value of restricted stock is based on the average of the high and low market price on the date an award is granted. The total compensation costs for restricted stock granted to employees for the nine months ended September 30, 2005 were \$29,183. The total compensation costs for restricted stock units granted to non-employee

directors under the 2005 Plan for the nine months ended September 30, 2005 were \$42,390. As of September 30, 2005, there was \$188,306 of total unrecognized compensation costs related to nonvested share-based compensation arrangements granted under the 2005 Plan. 8. Portfolio Securities Loaned

The Company makes loans of securities to brokers, secured by cash deposits, U.S. Government securities, or bank letters of credit. The Company accounts for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Company also continues to receive interest or dividends on the securities loaned. The loans are secured at all times by collateral of at least 102% of the fair value of the securities loaned plus accrued interest. Gain or loss in the fair value of the securities loaned that may occur during the term of the loan will be for the account of the Company. At September 30, 2005, the Company had securities on loan of \$27,480,230 and held collateral of \$28,263,605, consisting of an investment trust fund which may invest in money market instruments, commercial paper, repurchase agreements, U.S. treasury bills, and U.S. agency obligations.
