In addition, Column (A) in the table above indicates the percentage of each investment income dividend that qualifies for the 50% dividends received deduction allowed certain corporations with respect to dividends received from domestic corporations.

II. *There were no short-term capital gain distributions in 2020.*

III. *The long-term capital gain distributions*, whether received in stock or cash, should be reported as a “capital gain distribution” and treated by you as long-term capital gains regardless of the length of time you have held the shares. The total capital gain you received is included in your enclosed Form 1099-DIV in box 2a. Capital gain distributions do not qualify for the dividends received deduction described in paragraph I above.

The Fund had 0% of ordinary dividend income derived from U.S. Government Obligations in 2020. This information is provided to assist you in preparing your state tax return.
